You will:

- Collaborate in developing, implementing, managing, and enhancing occupational health and safety programs across the organization.
- Conduct thorough incident response and investigations, supporting affected departments in implementing corrective actions.
- Create and deliver occupational health and safety training materials, acting as a valuable resource for the MSK community.
- Perform assessments, generate reports, and contribute to multidisciplinary teams to guide initiatives and address complex problems effectively.

You have:

- 4-7 years equivalent work experience in science, engineering, environmental science, industrial hygiene, or closely related field!
- Experience in Laboratories is a plus!
- Working knowledge of Microsoft Office (Word, Excel, PowerPoint).

Pay Range: \$88,800.00 - \$142,200.00

This is role reports onsite - 1233 York Avenue (Scholars)

Company Overview: The people of Memorial Sloan Kettering Cancer Center (MSK) are united by a singular mission: ending cancer for life. Our specialized care teams provide personalized, compassionate, expert care to patients of all ages. Informed by basic research done at our Sloan Kettering Institute, scientists across MSK collaborate to conduct innovative translational and clinical research that is driving a revolution in our understanding of cancer as a disease and

improving the ability to prevent, diagnose, and treat it. MSK is dedicated to training the next generation of scientists and clinicians, who go on to pursue our mission at MSK and around the globe.
